This is a wonderful rehabilitation project of a concrete-floored modern-styled building situated in Santos beside the river Tejo. It is a short walk to Downtown Lisbon and to the other zones of Lisbon city. The project consists of 33 apartments over 9 floors. The range of apartments is from 1-bed through to 3-beds, with some units having exterior space, and many having views of the river. There is a communal rooftop terrace with a pool which covers the full roof and offers spectacular views of the river Tejo and Lisbon's famous bridge. Leased parking spaces are included for 10 years in the underground parking garage directly across the road. An entire floor of the garage is dedicated to this building. This project is by a highly-proven Developer. We are delighted to offer you this opportunity. Ref: PP173642
