The most breathtaking views of Porto, The Dom Luis I Bridge, coupled with the elegant and comfortable apartments that travellers are looking for are what made this small hotel become one of the ranked places to stay in the city. Created in 2018, this new building was a pioneer in the tourism industry in an area that has grown to become one of the most popular locations for tourists to reside. Six fully-furnished apartments in this building offer all the amenities one needs to feel at home, whether a single traveller or a large family of six. There is a reception area with a shop, a fully functioning outdoor bar, concierge services, transportation, breakfast and daily cleaning just to name a few. Privately owned and managed, this whole operation is now for sale, with the building as an excellent business investment for an eager investor ready to capitalize on the lucrative tourism industry of Porto. Ranked as the top destination in 2022, Porto is just beginning a long run of success. Over the years, the city has transformed itself from a diamond in the rough to the most sought-after travel destination in Europe. This very successful enterprise is now on the market.
