House on a plot of 1.158m2 in Paguera, southwest of Mallorca. It can be renovated to taste or you can use the proposed project as it has an active building license. The project is for a villa with a guest house, separated by an impressive swimming pool and sun terrace. The constructed area of the family house would consist of two separate two-storey structures with 392m2 distributed in 6 bedrooms, 4 bathrooms and 2 kitchens. The price includes a garage space, and the orientation of the property is south, so it has plenty of natural light. The position of the property is ideal, just 400 meters away from the beach of Paguera. This coastal town offers excellent bars, cafes and restaurants as well as stores along the boulevard. Paguera is also only half an hour's drive away from the center of Palma and the airport.
